### DR. F. B. BREWER.

was my partner in practice. The partnership was dissolved by mutual consent, that he might enter into the traveling business with Dr. Price. Respect to the man as I did for his social and business qualities and for his medical attainments, I have very much to say in his favor, and have such faith in his skill and ability, that I feel it my duty to give this testimony, after suffering a long time with heart trouble and general nervous prostration from which I failed to be relieved, although many kind physicians had assisted me in search of the desired relief. I finally wrote to my old friend and partner, describing my case. He sent me medicine at once, of which I have been taking four weeks. I feel it my duty, as well as those that think of me, to give this testimony, which I am most confident, I am 64 years old and have practiced medicine 25 years.

## THE VOTE IN CANADA.

### Result of the Parliamentary Election

### THE CONSERVATIVES WIN THE DAY.

Their Big Majority, However, Is Reduced to Less Than Twenty—Sir John Macdonald Returned to Power—Latest Figures.

### LIBERALS MAKE GAINS.

TORONTO, Ont., March 6.—Sir John returns to power by a reduced majority. At this hour it seems that it cannot be more than 15, possibly 20. The Tory party lost in Ontario, Quebec and Prince Edward Island. It holds its own in Nova Scotia, New Brunswick, British Columbia and the northwest territories. The majority of the government at the time of dissolution of parliament was 51. Sir John Macdonald is elected in Kingston by 500 majority. At midnight the vote by provinces stands as follows:

Provinces	Conservatives	Liberals
Ontario	44	47
Quebec	27	38
New Brunswick	11	14
Nova Scotia	11	14
Prince Edward Island	4	4
Manitoba	4	1
Northwest Territories	5	0
British Columbia	5	0
Total	111	104

Majority for conservatives, 17.  
There are 215 constituencies in the dominion which return 215 members to the house of commons. Of these 205 have been heard from. There are thirteen cabinet ministers, ten of whom have been elected and three defeated. The latter are Hon. C. C. Colby, president of the council; Hon. John Carling, minister of agriculture; and Hon. G. F. Foster, minister of finance.

Hugh Macdonald (conservative), son of Sir John Macdonald, is elected at Winnipeg. James Trow, a prominent liberal, is elected at South Port. Mackenzie Bowell, minister of customs, is elected for North Hastings by 200 majority. Sir Adolphe Caron, minister of militia, is elected for Rimouski. Hon. J. A. Chapleau, secretary of state, is elected for Terrebonne, Que., by a large majority. John Hager, postmaster-general, is elected for South Lanark by 500 majority. Hon. C. H. Tupper, minister of marine and fisheries, has been elected for Picton. Hon. Sir John Thompson, minister of justice, has been elected for Antigonish. Sir Donald Smith (conservative), has been elected for Montreal Center. Dalton MacCarthy, a leading conservative, is elected in North Simcoe. Sir Richard Cartright, the prominent liberal, is elected in South Oxford by over 800 majority. Robert Beith (liberal) is elected in West Durham, defeating G. Blackstock (conservative). Mr. Blackstock, it will be remembered, defended Birchell in the celebrated murder trial at Woodstock last summer. William Mulock, liberal leader, is elected in North York by a large majority.

C. C. Colby, president of the Tory council, who was running for Stanstead, province of Quebec, is defeated by over 100. The city of Ottawa has elected two conservatives. Toronto city has elected three conservatives. Sir John Macdonald has been elected for Kingston by about 230 majority. Sir Hector Langevin, minister of public works, has been elected for Richelieu. Hon. J. A. Ouimet, ex-speaker of the house of commons, is elected. Hon. David Mills, minister of the interior in the present government, is elected for Bothwell by 2 majority.

The Globe (liberal) says that the government has been sustained by a majority which at the present writing seems too small to enable it to carry on affairs for any considerable length of time. Its majority in the last parliament was 51 and in the new parliament will not exceed 15 or 16. At the outset, says the paper, it will be less than 20, and in times like these a Tory administration pledged to oppose a trade policy which is impoverishing the people cannot work with so slender a majority. The Globe says it is a case of cities against the country on the tariff issue and the result is such as will prevent the government from continuing in power.

The maritime provinces, where the Tories were sanguine of making a clean sweep, disappointed all their expectations and were virtually the means of sustaining the government. Little changes were expected from the north-western and Pacific provinces, where the government had a majority of 11 in the last parliament. The representation is practically unchanged.

The conservatives are not indulging in any great amount of jubilation. Their losses in the day's battle of both officers and men are not calculated to imbue them with any great amount of hilarity. The liberals are greatly encouraged by the showing they made in the election and confidently assert that Sir John cannot carry on the government with this meager majority and will ere long be forced to make another appeal to the country, when they expect to overcome his present small majority and defeat him.

**Electric Companies Want Damages.**  
NEW YORK, March 6.—The United States Illuminating Co. and the Brush Electric Illuminating Co. have appealed to the supreme court in an effort to secure against the city a judgment of upwards of \$1,000,000. The claim of the first-named corporation is for \$500,000 and that of the other for \$250,000. These sums, the companies claim, represent the damage done to their business by Mayor Grant's raid on overhead wires and poles in December, 1889.

### A Job for Ex-Gov. Gear.

WASHINGTON, March 6.—Iowans here say ex-Governor and ex-Representative Gear, of their state, will be appointed assistant secretary of the treasury to fill the existing vacancy. Mr. Gear was a distinguished member of the committee on ways and means and had much to do with the recent revision of the tariff.

### A Bank Robbed.

FREEMONT, Pa., March 6.—The Freeport bank was robbed Wednesday night. Less than \$2,000 in money was secured, but securities to the amount of \$15,000, a portion of them negotiable, were taken.

### TOPICS OF THE TIME.

It is proposed to build an open-air theatre at the Crystal Palace, London, with a seating capacity for 5,000 people. The proposition to discard the German type for Roman characters is being considered by the publishers of a leading German newspaper in New York.

The applications for membership in the Tammany Society are more numerous this year than they have been at any time during the last fifteen years.

This week a special line of night gowns and chirts \$1.00, that are worth one-half more.

Amounts paid.

## STUDENTS MEET DEATH.

Loss of Life at the Burning of a High School at Monroe, N. C.

MONROE, N. C., March 6.—Fire was discovered in the Monroe high school early this morning. An alarm was at once sent in and the students were aroused, but too late to save the building and two unfortunate young men—T. Pemberton, of Little Rock, Ark., and Albert Root, of Boston, Mass., the first alarm the young ladies who roomed on the ground floor made their escape. The young men roomed on the third floor and when the alarm reached them the means of escape were partially cut off and the building filled with smoke and flames. Albert Root and A. C. Rhodes were in a room together. Albert awakened first and discovering the fire awoke Rhodes. In trying to escape Albert started for the west entrance, which was in part of the building where the fire originated. He was suffocated by smoke and went down with the building. Rhodes sought the east entrance and managed to escape after being severely burned about the neck, head and arms. Thomas Pemberton was not seen at all, and his remains were found on the wire springs of his bed. The building was destroyed, together with the school furniture, four pianos and the library. The origin of the fire is not known. The loss is \$15,000.

### A JEALOUS LOVER.

He Kills His Sweetheart and Cuts His Own Throat.

PORT HURON, Mich., March 6.—Mrs. Charles Murphy resides on a farm about 15 miles from this city. Wednesday night she sat up with a sick neighbor, the daughter of a friend, and the hired man, Daniel McMahon, alone in the house. When Mrs. Murphy returned Thursday morning she found her daughter lying dead on her bed, her throat cut from ear to ear. The room bore evidence of a terrible tragedy. A trail of blood led to the hired man's room, where he was found with his throat cut in a like manner. He was still alive, but unconscious and will die. McMahon was a rejected suitor of Annie, and it is claimed, said that she would never marry anyone else. As she was engaged to another young man of the neighborhood it is thought that McMahon killed her in a fit of jealousy and then cut his own throat.

### Mission for Col. Pierce.

WASHINGTON, March 6.—Ex-Senator Pierce, of North Dakota, is understood to have been tendered the new mission to Central America which was created by the diplomatic and consular appropriation bill. There has been but one minister from the United States to the five Central American republics, but at the late session congress provided that he should be accredited only to Guatemala and Honduras and that a new representative should be sent to the other republics of Salvador, Nicaragua and Costa Rica. Col. Pierce has not yet signified that he will accept the appointment.

### Panic in a Factory.

DANBURY, Conn., March 6.—The breaking of a governor belt on an engine in Green & Fenton's hat factory caused the engine to "run away" and the three-ton flywheel burst. The explosion was so terrific that nearly every one in the building was thrown down. Several pieces went through the trimming-room where sixty girls were at work and caused a panic. Two girls, Lizzy Feely and Lagon, leaped out of the window, twenty-five feet from the ground, and received internal injuries.

### The Treasury Surplus.

WASHINGTON, March 6.—The net surplus in the treasury at the close of business Wednesday was less than \$9,000,000. It has been reduced within the past week by heavy pension requisitions for the next quarter, more than \$30,000,000 having been paid out on this account. The drain on the treasury from this source will now cease for three months and the surplus is expected to gradually crawl up again to figures approximating \$35,000,000.

### A Big Steamer Burned.

NEW YORK, March 6.—The big side-wheel passenger steamboat City of Richmond of the Hartford line was burned at her dock, pier 24, East river, at 8 o'clock Thursday afternoon. The boat and cargo were totally destroyed. The boat was estimated to have been worth \$125,000. There was a large and valuable cargo on board. One consignment of rubber alone was worth \$10,000. The boat was fully insured.

### Senator Hearst's Funeral.

WASHINGTON, March 6.—The funeral services over the remains of the late Senator Hearst took place at his residence at 11 a. m. They were brief and simple and conducted in private. Saturday evening the remains, accompanied by Mrs. Hearst, her son W. R. Hearst, Dr. Charles S. Ward, of New York, J. S. Follansby, John Wedderburn and the congressional committee, will be taken to San Francisco, where a public funeral will take place.

### Funeral in a Snowdrift.

SALT LAKE CITY, Utah, March 6.—In a snowdrift one-fourth of a mile below Alta, in Emery gulch, Wednesday, nine men were caught. Hans Olsen and Barney Cast were killed instantly, the body of the latter being recovered. August Hansman and John Ford were badly hurt but got out alive and are being brought to this city. The other five had narrow escapes but are unhurt.

### Snubbed by Gov. Hill.

ALBANY, N. Y., March 6.—Gov. Hill has refused to extradite Colbert, a Danbury (Conn.) horse thief on a requisition signed by Morgan G. Bulkeley as governor. In a long message he reiterates his opinion that Morris is governor of Connecticut.

### A Bank Robbed.

FREEMONT, Pa., March 6.—The Freeport bank was robbed Wednesday night. Less than \$2,000 in money was secured, but securities to the amount of \$15,000, a portion of them negotiable, were taken.

### Big Blaze at Ottumwa.

OTTUMWA, Ia., March 6.—The Martin drill factory was burned Thursday afternoon, the machinery and stock, valued at \$40,000, being completely destroyed. The insurance is \$15,000.

### Scottish-Irish Convention.

LOUISVILLE, Ky., March 6.—It has been decided by the executive committee of the Scottish-Irish association of America to hold the next meeting in this city, May 14 to 17.

## TWO SHOT BY HUSBANDS

Tragedies in Wisconsin And Indiana.

### TWO MEN SHOT THROUGH THE HEART.

In Both Instances the Victim Was the Brother of His Murderer's Wife—Domestic Troubles the Cause in Each Case.

### TWO SENSATIONAL MURDERS.

MILWAUKEE, Wis., March 6.—G. M. Steele, a prominent druggist at Ashland, was shot through the heart Thursday by his brother-in-law, W. G. French. The affair occurred in Steele's drug store and was witnessed by several persons, the murderer's wife being among the number. French gave himself up immediately after the shooting and was taken to the county jail, where he told the cause of the fatal affray. He claimed that Steele came between him and his family, his wife making a confidant of her brother. A noon Thursday he followed her to the drug store and demanded that Steele give up to him money that Mrs. French had deposited there. Steele refused and French drew his revolver and fired three shots, two taking effect in Steele's breast and causing instant death.

### INDIANAPOLIS, Ind., March 6.—A special from Seymour, Ind., to the News says: Some time ago the wife of Charles Corryell, a well to do farmer near here, left him and went back to her parents to live, meanwhile suing for divorce. Corryell had sworn vengeance on both his wife and her father, Mr. Burdell. Wednesday night Corryell met his wife and her brother, Arthur Burdell, aged 17, at Beach Grove church. He endeavored to take his little child away from his wife, also laying violent hands on her, whereupon young Burdell interfered in his sister's behalf. This so incensed Corryell that he drew a pistol and fired at the young man, the ball penetrating his heart. Corryell is in jail.

### BASEBALL.

The National League Schedule Adopted—The Season Opens April 22—The Reserve Rule Practically Done Away With.  
NEW YORK, March 6.—The schedule of the National baseball league has been adopted. The season opens April 22 and closes October 3. The western clubs play in the east on decoration day and the eastern clubs in the west on the fourth of July. The western clubs are at home on labor day.

NEW YORK, March 6.—The National baseball league at its convention Wednesday adopted a new form of contract, which virtually does away with the reserve clause and gives the players more rights. The International league was admitted to the national agreement, and it was decided to support the claims of John T. Brush in Cincinnati.

### TROUBLE IN HAWAII.

A Conspiracy, Headed by Col. Ashford, to Seize the Government.  
SAN FRANCISCO, March 6.—A prominent merchant from Honolulu brings news of a conspiracy, formed by Col. Ashford, to seize the Hawaiian government and make the queen a mere figurehead. The scheme was similar to the one engaged in by Wilcox four years ago. The American minister learned the full details of Ashford's scheme and arranged to have marines landed from the Mohican and Iroquois in case any attack should be made on the government house. The uncertainty of political affairs on the island is causing great uneasiness among the conservative element.

### Streeter Gaining.

SPRINGFIELD, Ill., March 6.—Four ballots were taken in the senatorial contest, the last—the 14th—resulting: Palmer, 101; Streeter, 98; Oglesby, 5. The Republican state central committee met yesterday afternoon, when resolutions were adopted practically plugging the party to the support of Streeter and instructing the members of the legislature to vote for him.

### Violent Out on Rail.

ST. LOUIS, March 6.—Charles W. Vail, whose trial for murder resulted in a disagreement of the jury, has been admitted to bail in the sum of \$10,000. The case will probably never come to a second trial, as the state's attorneys are loth to again prosecute on the very slight evidence against the defendant.

### Fire at Philadelphia.

PHILADELPHIA, March 6.—The fruit preserving and canning establishment of the J. O. Schimmel Preserving Co., at Eighth and Brooks streets, was totally destroyed by fire. The loss on stock is estimated at \$80,000 and on building \$50,000.

### Killed by Her Crazy Husband.

PITTSBURGH, Pa., March 6.—A special from Franklin, Pa., says: Thomas Moran, an old and prominent citizen of this place, shot and instantly killed his wife in a fit of insanity. He is now a raving maniac and has been taken into custody.

### Back Pension of \$16,000.

CORRY, Pa., March 6.—One of the largest pensions of recent years has been awarded to Dr. Manhattan Pickett, of this place, formerly a member of the Twelfth New York volunteers. He receives \$16,000 back pay.

### Killed by a Falling Cage.

SALT LAKE CITY, U. T., March 6.—Capt. Thorn, assistant superintendent at the Mammoth mines, Eureka, U. T., and a companion were killed Thursday morning by a falling cage. They dropped 600 feet.

### Big Blaze at Ottumwa.

OTTUMWA, Ia., March 6.—The Martin drill factory was burned Thursday afternoon, the machinery and stock, valued at \$40,000, being completely destroyed. The insurance is \$15,000.

## THE SHADOW OF FREE TRADE.

It will prove fortunate for voters who may for the moment be tempted by the dazzling pictures held out by free trade crusaders if a little search be made for the inspiration of that interest in the general world of this country just now so prominent. It will prove equally beneficial if some attention is also given to the results of the "revenue only" policy as found in the nation most active in the effort to force its views upon this country.

A glance along the line of march of free trade crusaders soon finds it reaching a steepest pier, and thence to England. There the area devoted to farming is steadily diminishing under the necessity for competing with bread-stuffs grown abroad. There the effort to keep the price of manufactured products low enough to underbid other nations in their own markets, has crowded wages to a level that compels wives and children to join in the battle for bread, while the unrelenting problem of providing for the army of the unemployed is pressing upon parliament with daily augmenting intensity.

Such are the practical fruits of the policy championed by the Cobden Club, and urged by its American assistants for adoption by the United States.

Remove the existing tariff on wheat, and India would pour her grain into San Francisco and other seaports at prices far below the cost of production here. Remove the tariff from any considerable number of our wide range of manufactures, and foreign competitors would take our market, or compel the cost of production here to conform to that in countries of lower wages. And these facts voters cannot afford to learn in the dear school of experience.

## SUGAR TWO CENTS CHEAPER.

Truth does get much of a chance in the free trade paper. It has to hide away in small type among the market reports while the carefully bolstered up story about "high McKinley prices" occupies a front seat and is in full force.

But truth gets a chance once in awhile. The other day it was to be found in the market reports of free trade papers as follows: "If refined sugar will be two cents cheaper to the consumers on April 1, as a result of the McKinley bill." The Chicago Inter Ocean in commenting on the fact says: "If we remember rightly, that 'wise and statesman-like message' of President Cleveland, did not propose to reduce duties on sugar to the cheap sugar on and after the first of April, 600 carloads of the cheaper sugar coming to Chicago alone, the McKinley bill is working pretty well up to date.

There are probably occasions when young preachers who have a full share of human nature in their composition are not rendered unhappy by the bright smiles and shining eyes of charming girls; but a young Pennsylvania preacher, who went to a New York town to preach a trial sermon on a recent Sunday, was worried in getting enough out of his patience to say in the midst of his discourse: "I regret to state that I am an exceedingly nervous man, and am annoyed by a young lady in the congregation who has been endeavoring to flirt with me this morning. I have neither the time nor the inclination to return the compliment at this time but may do so later on." A very wise man said, there was a time for most things, but that young lady evidently had the wrong time table.

When the man who succeeds Senator Ingalls was on the staff of the Topeka capital he spelled his name P-e-f-f-o-r, as his forefathers. But he assumed control of the Kansas Farmer he dropped the "f" and made it P-f-f-o-r, and now he has been elected to the United States senate he spells it P-f-f-o-r and requests all correspondents to do likewise. If his political career continues to be a success and his dropping of letters continues, he will be known as the "nosmless statesman."

North Dakota may not allow so much fun among its senators as in this state, but it does not propose to shut off all athletic encounters where gloves are used. Nevada goes further and is arranging to license prize fights—the bare knuckle, broken head sort. The idea is to induce sports to go there and pay a revenue to help support the state government. It might be well to send a few missionaries out there—Sam Jones, for instance.

Ohio and Indiana papers are exchanging compliments while they discuss a projected change in the line between the two states. The Cleveland Leader is greatly opposed to changing the line. It says that the change would turn into Ohio 5,000 Indiana democrats, which might give considerable trouble in certain circumstances.

The quarrel in public the other day between the Prince of Wales and his

loyal mother, in the midst of imposing public ceremonies, was not an indication that the queen has any thought of dropping off to enable her fifty-year-old boy to become king. She is the better risk now for a life insurance company.

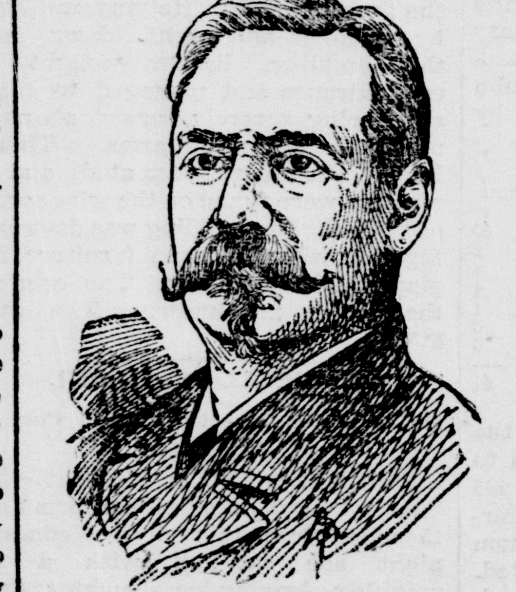

San Francisco is a curious town. It is one of the few places where the Chinese plan to exterminate a few of their number, the police separate the embassies. At this distance the hubbub method of official migration is the only way invented.

Boston Herald: A holiday was originally a holy day. Now—anyone who is a lack upon the two inconsistent with each other, and a holiday that falls on a holy day is postponed to the following day.

Even a storm is not likely to keep business men away from the meeting of the Business Men's Association this evening. The new charter amendments will receive thorough discussion.

## SOME WELL KNOWN FACES.

A World's Fair Architect.

**RICHARD M. HUNT.**  
Richard M. Hunt, a New York member of the board of architects of the World's fair, is a brother of William M. Hunt, the artist, and was born in Brattleboro, Vt., Oct. 31, 1838. He studied in America, then in the Ecole des Beaux Arts in Paris. Before he returned to America he visited Greece, Asia Minor and the art centers of the continent. In 1855 he was engaged on the Capitol at Washington. He has designed several structures of importance, among them being The Tribune building, New York; the pedestal of the Bartholdi Statue of Liberty, etc.

## THEIR LIVES SPARED.

Gov. Fifer, of Illinois, Commutes the Death Sentence of Againer Calvi Holden and Albert Dunham for the Murder of Harley Russell.

SPRINGFIELD, Ill., March 6.—Gov. Fifer has granted a commutation of sentence to life imprisonment in the case of Calvi Holden and Albert Dunham, sentenced to the hang at the Monticello to-day for the murder of Harley Russell on the night of June 21, 1890. The governor gives his reason for granting the commutation as follows: "Owing to the great doubt that has arisen as to the guilt of these defendants, I am unwilling that they should suffer the extreme penalty of the law, and therefore commute their sentence to imprisonment for life in the penitentiary at Joliet." He said that if subsequent developments should conclusively prove the innocence of the men he would consider the propriety of an unconditional pardon.

MONTICELLO, Ill., March 6.—When Holden and Dunham, the condemned murderers, were informed that Gov. Fifer had commuted their sentence to imprisonment for life they manifested little feeling, saying that it was what they had expected. Everything had been prepared for the execution. A large space east of the jail had been erected in which the scaffold was erected and the drop tested.

## ILLINOIS.

Little Business Transacted in Either Branch of the Legislature.

SPRINGFIELD, Ill., March 6.—The house was in session half an hour and all of that time was taken up in the reading of the report of the joint committee appointed by the Thirty-seventh general assembly to investigate the prison systems of the country. In the senate Senator Bogardus' bill to protect persons, associations and unions of workmen in their labels, trade-marks and forms of advertising was ordered to third reading. The committee on the judicial department made a report recommending that the Merritt conspiracy act be passed. The senate rejected the report and ordered the bill to a second reading—yeas, 27; nays, 21. The bill will probably be passed. Bills were introduced to govern the manufacture and sale of articles of glassware, the penalty for violating being \$200 to \$250; providing for the appointment of a state food commissioner, giving him power to prosecute any person for food adulteration; appropriating \$22,000 annually for repairs and improvements at the Joliet penitentiary.

## Voted Against Woman's Suffrage.

LANSING, Mich., March 6.—The senate on Thursday defeated the bill to confer upon women the right to vote at municipal, township and school elections. The bill for a repeal of which is known as the Baker conspiracy law of 1887 was defeated in the house Thursday by a vote of 49 to 26, two less than a majority. A motion to reconsider was noticed. The law as it stands admits the bringing in of Pinkerton men or others from outside the state for service in suppressing acts of violence in cases of strikes.

## Increase of the Race.

WASHINGTON, March 6.—A bulletin on the subject of racial increase in population of the country during the last decade will soon be issued from the census bureau. It will show that the increase during the last ten years of the white race has been 24 per cent., while that of the colored race has been 13 per cent.

## Many Sailors Lost.

BOSTON, March 6.—The schooner Elsie Smith, of Portland, is reported lost with all on board on the beach off Cape Cod, between Newcomb's Hollow and Naussett. On board were eighteen men and the latest report is that twelve bodies have been washed ashore on the beach.

## He Was Murdered.

MONACO, March 6.—It is now announced that the police have discovered Eng. Lindermann, of Manchester, San Remo whose body was found at sea, was supposed to have committed suicide, was murdered by his paramour and her lover.

## Nebraska's Mixed-Up Government.

LINCOLN, Neb., March 6.—The supreme court has overruled the demurrer in the quo warranto case of Ex-Gov. Thayer against Gov. Boyd, and ordered that the attorneys for the regulator file an answer in the case on Tuesday next.

## TO OPEN THE FAIR.

Programme for the Inaugural Ceremony, of the Big Show.

CHICAGO, March 6.—The committee on ceremonies has outlined the grand inaugural ceremonies which will inaugurate the World's Columbian exposition. When the signal gun is fired Tuesday, October 11, 1893, there will be encamped on the exposition grounds 15,000 troops waiting for the command which will set in motion the greatest and most spectacular military pageant ever witnessed in this country. The flower of the United States army will be seen in the 5,000 regulars, massed at Jackson park and 10,000 of the national guards and state militia will participate in the military parade which will be the feature of the opening day.

The next day (Wednesday) will be dedicated to day proper. The inaugural address, delivered by the chief orator, will be accompanied by a literary and musical programme appropriate to the auspicious occasion. On this day the inaugural ode, American in theme, national in character and patriotic in sentiment, composed and written by an American poet, will be chanted by a grand chorus of over 2,000 adult and 1,000 children's voices led by Prof. W. L. Tomlins, augmented by a magnificent orchestra under the baton of Theodore Thomas. Miss Harriet Monroe, who wrote and read the poem at the opening of the Auditorium, will represent poetry on dedication day and her inaugural poem will be read during the ceremony. A great industrial parade, to be participated in by all trades unions in the city, will also take place on this day.

Thursday's programme will consist of concerts—one in the morning at the park and another in the afternoon at the Auditorium. A sham battle will be fought Friday, after brigade drill, in which all the troops will participate—artillery, cavalry and infantry—and the day will close with a grand ball Friday evening, which will be held in one of the huge buildings at Jackson park. It is expected that the Marine band of Washington will furnish the music for the ball, for which 2,000 tickets will be issued. These tickets will cost \$10 each and will only be sold by invitation.

The president of the United States, his cabinet, governors of states, army and navy general officers, the highest dignitaries of the judiciary, legislative and executive of the country, with prominent celebrities from every section, representing every art, business and profession, together with diplomats and representatives of foreign nations, will attend this inauguration of the World's Columbian exposition.

The chief of construction has furnished a detailed description of the buildings for the Columbian exposition and the layout of the land at Jackson park. He divides the park into five sections. The north end or improved part is retained for state and foreign government buildings, with possibly the art palace. Midway pleasure is to be used for curious exhibits installed as privileges, the lagoon, island and contiguous land will be the front for the main group of buildings. The fourth section is to be the main court with a pier extending into the lake. The fifth includes the space south and back of the court to be used for cheap buildings for various purposes. The chief of construction expresses himself as highly pleased with the plans presented and believes that the construction of these buildings will begin a new era in American architecture.

An important conference between President Gage, Vice President Bryan and Director Nelson and the conference committee representing the organized labor of Chicago was held at world's fair headquarters Thursday night. The object of this meeting was to arrive at a better understanding of the memorial presented to the board of directors two weeks ago regarding the claims of organized labor on world's fair work. All the points of the labor statements were carefully reviewed, with the result that the labor men were practically assured that the two most important claims, "eight hours to constitute a day's work" and "arbitration" would be allowed. In regard to the minimum rate of labor, which the labor men wanted fixed at \$1.50 a day and preference of home labor to be given, President Gage did not feel justified in making any promises. The directors think it impracticable to commit themselves on these points. The rate of labor must be fixed by the contractors who hire and pay the men, and to decide whether a workman is a citizen of Chicago or not is a matter of great difficulty, in fact, almost an impossibility. So far as alien labor is concerned, the statutes and city ordinances have a direct bearing on that point.

WASHINGTON, March 6.—The most encouraging advices from Europe concerning the Columbian exposition have been received at the department of state, and it is now practically assured that all the European governments will be represented, as they were at the centennial of 1876. The consuls of the United States report a growing disposition among the manufacturers to show their wares, and the ministers give assurances that the governments will be officially represented by commissioners. The Russian government is especially cordial in its attitude toward the exposition and will exhibit more than has been contributed by the government of the United States to the exposition.

## Specimen Case.

S. H. Clifford, New Cassel, Wisconsin, was troubled with rheumatism, his stomach was deranged, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Back's Anker-Pain-Expeller and was entirely cured. Sold by Frank Sherer & Co., druggists.

## A Mystery.

How the human system ever recovers from the bad effects of the various medicines often literally poured into it for the suppression of rheumatism, liver complaint, constipation, rheumatism and other ailments, is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they are weak, bilious, dyspeptic, or otherwise, they will offend the system, and the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest and derivative from rational medication. This medicine is a searching and powerful, derived from vegetable sources and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery hot bitter and stimulants often resorted to by the uneducated and dyspeptic and languid.

## THE APPROPRIATIONS.

The Fifty-First Congress Expended About \$1,000,000,000—Lands Opened—The Copyright Law.

WASHINGTON, March 6.—The following is an approximate statement of appropriations made at both sessions of the Fifty-first congress as prepared by the clerk of the senate committee on appropriations: Amount of regular bills, including deficiencies and miscellaneous appropriations for the first session, \$31,700,000; amount of regular bills, including deficiencies and miscellaneous appropriations for the second session, \$905,000,000; permanent appropriations for the first session about \$101,000,000, and permanent appropriations for 1892 estimated at \$122,000,000; grand total, \$938,700,000. Senator Allison expects to have a detailed and positive statement completed in a few days.

The legislation enacted by congress in the ratification of various treaties heretofore concluded between commissioners on the part of the United States and the various Indian tribes will result in an opening up of over 8,000,000 acres of the public land to settlement. The aggregate cost to the government of this land will be about \$9,000,000. About 5,000,000 acres of the land thus thrown open is situated in the vicinity of Oklahoma and include lands occupied by the Sacs and Foxes, the Iowas, Pottawatomies, the Cherokees and Arapahoes. The remaining 3,000,000 acres is made up of lands heretofore occupied by the Sisseton and Wahpeton Indians in Dakota, the Couer d'Alene in Idaho, the Crow Indians in Montana and the Sioux Indians on the Fort Berthold reservation in Dakota. In some cases the Indians have other reservations to which they will go, and in others they will take allotments in severalty of lands on their present reservations and surrender the remainder.

The copyright act, which has become a law, applied to books, etc., published after July 1, 1901. To acquire the benefit of international copyright English authors will have to publish simultaneously—that is, on the same day—on both sides of the Atlantic. They will have to publish here to secure American copyright and in England to secure English copyright. The book must be printed from type set up in this country or plates made from such type, and it must be bound here. In the case of a book, map, dramatic or musical composition, photograph, chromo or lithograph, the two copies required to be deposited in the library of congress must be printed from type set within the United States or from plates made therefrom, and from engravings, cuts, negatives and drawings on stone executed within the United States. The importation of copyrighted books, etc., printed abroad is prohibited, except in the case of persons purchasing for use and not for sale, who import subject to the duty thereon not more than two copies of a book at one time and except in the case of newspapers and magazines not containing in whole or in part matter copyrighted under the provisions of the act unauthorized by the author. In case of books in foreign languages, of which only translations in English are copyrighted, the prohibition of importation applies only to the translation and the importation of books in the original language is permitted. The president of the United States is empowered to declare by proclamation the existence of conditions determining foreign countries of the right of American authors to copyright or the existence of an international agreement, which provides for reciprocal granting of copyright by the terms of which agreement the United States may at its pleasure become party to the agreement.
